2. The meeting was started with [] explaining the purpose of the get together -- to initiate the procedure for stocking the Model 1 Air-Fed Incinerator. The undersigned then explained the current state of development of this item. [] also mentioned that there was interest in placing this item on the Federal Supply Schedule. However, [] explained that this could easily, and most likely, take a year and it would be much simpler for the Agency to stock these incinerators and make them available to the other outside agencies as they express an interest and desire for them.

B. TSD will assist Logistics in the inspection of production lots. 100% inspection will be required.

C. PSD will initiate a memorandum (to be coordinated with TSD) to Logistics to place the Model 1 Air-Fed Incinerators in stock for availability to the field. PSD will break down the requirements list by Area Division, Commo, and stocking necessities.

D. No more stacking (still the 16 inches of SS stack) will be stocked. The station will have to write in their requirements and Logistics will have this stacking provided.

E. Models 2 and 3 will not have any field testing. The procurement will closely resemble those outlined for the Model 1.
